

## **New Title Release: Information Sheet**

**TITLE:** Rod of Jesse:

**SUBTITLE:** On the Jesus of the Gospels & Doubt of his Existence

**AUTHOR:** Ernest Werner

**ABOUT THE BOOK:** Many continue the search for the “real” historical Jesus in the archeological ruins while others take a leap of faith in the DaVinci code. The real Jesus of history is to be found in the Gospels as we have them and not in some secret code in the Dead Sea scrolls. The real Jesus is revealed by the historical process of the living Gospel, fully allowing for the many legends and elaborations of the underlying events. This book advances our understanding of how and why the four Gospels were written about a real man named Jesus.
